

NEW DESIGNS FOR YOUR MONEY

NEW U.S. CURRENCY

The United States of America has issued a new series of currency with security features to help protect against technologies that could be used for counterfeiting. Newly designed \$10 and \$5 notes are being issued in the middle of 2000. New \$20 notes were issued in 1998; new \$50 notes, in 1997; and new \$100 notes, in 1996.

There will be no recall or devaluation of any U.S. currency. Whether old or new, all U.S. currency will always be honored at full face value.
